

## Forschungskooperation BELLA

### BELLA-Studie zum seelischen Wohlbefinden und Verhalten von Kindern und Jugendlichen in Deutschland

Die BELLA-Studie findet unter Federführung von Prof. Ulrike Ravens-Sieberer in Ergänzung zur bundesweiten Studie zur Gesundheit von Kindern und Jugendlichen in Deutschland (KIGGS) des Robert Koch-Instituts statt. Sie nutzt die darin bereits erhobenen Eckdaten zur psychischen Gesundheit und Lebensqualität und vertieft diese durch spezifische Fragestellungen. Prof. Döpfner ist Mitglied der Bella-Studiengruppe.
